Rural Communications Platform

Production 2007

Target: Rural Communities

- **Poor power conditions**
- **Lack of Basic Communications**

Platform Value

- **Affordable Wi-Fi Connection to Upstream Internet**
  - Upgradeable to Wi-Max
- **Enables communication with outside world and Other Villages**
- **Brings Connectivity government services**
- **Establishes connectivity link for APC and CPC**

intel

WiMax Rollouts

- In conjunction with holistic plan to shape government agenda towards competitiveness through ICT applications planning, policy

- Collaborative efforts with Service Provider(s)

- Payoff: big PR push

  - Vietnam, Sri Lanka, Philippines, Indonesia, Thailand…

Digital Inclusion Programs

SIDBI and Intel support SME
Financial Times – India: June 6, 2005
Intel has also signed partnerships with several banks, including the Small Industries and Development Bank of India (SIDBI), the largest lender to small and medium businesses. The aim was to "ensure affordable financing and technology know-how reaches potentially the largest community of new computer users," said Mr N Balasubramanian, SIDBI's chairman.

Government Grants Tax Exemption For PC Connected Program – Brazil (BNamericas.com)
Brazil's government has decided to waive taxes on PCs bought through the PC Connected digital inclusion program. The federal government is hoping the program will appeal to 7 million families in socio-economic class C and 1.8 million small and medium-sized companies

SMB IT Makeover project (Turkey)
achieved a total of 21 hits on titles like Economist, Hurriyet, Tekborsa and half page on Dunya as well as 8 TV hits most of which was on CNN.

Intel ve Logo'dan bir KOBİ'ye örnek yatırım

INTEL, Logo ile işbirliği yaparak; Avrupa'da uygulayacağı Küçük ve Orta Boy İşletme (KOBİ)'lere yönelik "KOBİ-lişim Projesi"ni ilk önce Türkiye'de hayata geçiriyor. Proje; teknoloji kullanımının bir firmaya neler kazandıracağını kanıtlayacak. Proje için bir KOBİ seçilerek teknolojik altyapısının Intel tabanlı gerçek bir sunucu, masaüstü ve dizüstü istemciler ve LOGO uygulama yazılımlarıyla yenilenmesi sağlanacak. KOBİ'nin YTL ve enflasyon muhasebesi gereksinimleri de karşılanacak. Intel Türkiye Genel Müdür Yardımcısı Tolgar Elverici, "KOBİ'lerin bilişim altyapılarını geliştirmek için

Community PC Platform

Launched

Target: Rural Communities

- **Poor power conditions**
- **Harsh environment: dust, bugs, heat**
- **Lack of computer skills**
- **Government services time consuming**

Platform Value

- **Convenient info access**
  - **Healthcare**
  - **Education**
  - **Government services**
- **Creates sustainable businesses**

Solutions

Area	Challenge	Possible Solutions
ICT Applications	● Determining which ICTs will engender the targeted outcomes, such as improved quality of education or decreased instance of disease	● In-classroom technology pilots ● Discover the PC ● Ultra Mobile PC

In-classroom Technology Pilots

Moving from the PC lab to the classroom: ICT is integrated into teaching and learning

Hybrid Learning

• Media guided lessons allow teachers to facilitate the learning process

Shared Desktops

• ICT augments core curriculum in a collaborative environment

Computers on Wheels

• Instantly creates a 1:1 learning environment in the classroom
• ICT is completely integrated in the core curriculum

Shift learning about technology to *learning with technology*

Discover the PC

Production End of April

Target: Emerging Market Regions

- **Need for a Full Function PC**
  - Education
  - Basic Communications
  - Music/Video play
  - Productivity Tools

Platform Value

- **Cost effective fully-functional PC**
- **Positive experience for first time user**
- **Low acoustics for dense living conditions**
- **Small form factor for limited space**
- **Low Power Consumption**

(intel)

Ultra Mobile PC

ASUS

Available Q2'06

SAMSUNG

FOUNDER

intel

Target: Mobile Individual

- Consumers on the go
- Internet on the go
- Entertainment (music, movies, photos)
- Personal productivity (office, email)
- Education
- Healthcare

Platform Value

- Easily portable, 1 lb
- Long battery life
- Full PC functionality
- Location adaptable connectivity
- Natural input (digital ink, microphone)

Call to Action

- **Learn more about how these programs and solutions can support existing USAID programs**
  - **visit Intel's Platform Definition Centers**
  - **engage Intel with input & questions**

- **Focus on a combination of business models + appropriate technology + channels**
